

WE ARE OPEN

THANK YOU

to all our loyal customers and friends for their support during the Lock-down. We served over 1100 takeaway meals and lots of beer!

We are now up and running with a full menu and range of beers.

We have screens in place, hand sanitisers and one way systems. All our tables, surfaces, screens and toilets are anti viral sanitised on a regular basis. We have a Covid 19 risk assessment in place and all staff have PPE available and have been trained in its use. We have a large garden with plenty of room for social distancing and our marquee is also available for people to sit in the air outside.

Takeaway meals are now available every day, for those still a little worried we will happily bring these out to your car for you.

Our menus are available on our Facebook page. Please do check them as we try to change them on a regular basis.

Our website will be renewed soon once we are settled into the new routine and know the best way forward.
